BANGALORE INTERNATIONAL KIDS CLOUD

PRE-SCHOOL

Recognized By Government of Karnataka

“The most effective kind of education is that a child should play amongst lovely things.”

Bangalore International Kids Cloud

EDUCATION, INSPIRATION & THE JOY OF LEARNING Children are born with immense curiosity and imagination. We believe children are self-learners—all the time exploring, questioning, developing, imagining, and contributing to learning. Early infancy is the most crucial stage of the human life cycle, where the infant has maximum curiosity, which needs to be catered to through holistic development.

Therefore, **Bangalore International Kids Cloud** is 'a small step towards a giant leap in a child's life. Bangalore International Kids Cloud is building a strong foundation for self-learners, nurturing them by providing an environment to learn, observe, and question, thus developing curiosity and fascination. The preschool follows a practical learning strategy through creativity that is based on regular training and upgrading the teaching approach by keeping up with the changing pace of time.

KIDS CLOUD emphasizes and encourages your support as a parent or guardian at all times. We believe in complete transparency among teachers and parents that helps in the child progress. This remains true irrespective of the age group of your child falls into.

Why Choose Us

- ✔ **Hybrid Montessori Curriculum:** blending Montessori principles with modern teaching methods.
- ✔ **Child-Centric Learning:** focused on individual growth and development.
- ✔ **Experienced & Caring Educators:** trained to guide every child with patience and love.
- ✔ **Focus on Holistic Development:** academic, social, emotional, and physical growth.
- ✔ **Activity-Based Learning:** that promotes creativity, curiosity, and critical thinking.
- ✔ **Safe & Nurturing Environment:** where children feel happy, secure, and confident.
- ✔ **Mandatory Field Trips:** that enhance real-world learning beyond the classroom.

It takes a big
HEART
to help shape
Little Minds.

Board Of Management

Chairman's Message

"To Unleash the Potential in Your Child..." The object of education is to prepare the young to educate themselves throughout their lives.

Many a time we are beset by the question: How much of learning is education, and how much is information? There have been many opinions on the best way to educate children and to sift information from education, but none conclusive enough to enable educationists to implement tools to really home in on what constitutes education and provide it in ample measures to the insatiable curiosity of children.

Rtn, Dr. D. Muniraju

Founder Chairman
Bangalore International Group of Institutions (BIGI)

Director's Message

If our school is a pen, the parents are the ink; joining together, we can write a success story of the educational development of our children. With the intention that "no child is deprived of any opportunity and to maintain, increase, and diffuse knowledge."

I believe that the true goal of education is to impart knowledge, keep one's body healthy, make the mind curious to explore, participate in the order of existence, be prosperous, have a compassionate heart, and be full of dreams. Bangalore International Kids Cloud implements a visionary preschool approach centered on nurturing children's innate curiosity through holistic, self-directed learning. Their methodology stands out for its child-centric focus, blending play, exploration, and modern tools to build lifelong learners.

Rakesh Muniraju

MBA (UK), Director BIGI

Vision

We aim to nurture happy and confident children by providing child-centric learning. Our Endeavour is to promote creativity, environmental sensitivity, and academic excellence. We help inculcate a spirit of lifelong learning for our children to become effective change agents.

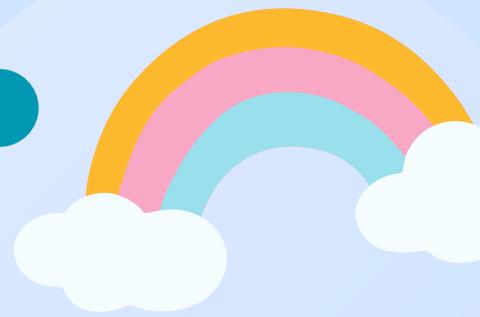

Mission

To provide joyful and child-centric education which extends beyond academic excellence. Let children nurture their latent skills naturally and explore all possibilities, which build a strong foundation for them to become a good citizen.

Kids Cloud Curriculum

Toddlers

2 - 3 Years

These crucial years between infancy and childhood can make all the difference. That's why, at Bangalore International Kids Cloud Preschool, we ensure that we encourage toddlers to develop a variety of necessary skills in a fun and interactive way. With each skill or stage your child masters, every new stage begins.

FINE MOTOR SKILLS: Development of finger and eye coordination.

GROSS MOTOR SKILLS: Focus on crucial skills like walking, running, and kicking.

EMOTIONAL SKILLS: Exploring the world of emotions and teaching skills like sharing & caring.

SOCIAL SKILLS: Imparting skills like responding to actions, asking questions, and engaging in small conversations.

COMMUNICATION SKILLS: Singing, reciting rhymes, and sharing experiences with confidence.

COGNITIVE SKILLS: Sowing seeds to help them think, learn, understand, and accumulate knowledge.

Nursery

3 - 4 Years

Our approach to learning in the Early Childhood program is tailored to the developmental needs and readiness of students at each age and stage.

Each subject area is approached from each child's developmental perspective, subject background knowledge, & level of understanding. Our teachers help to guide your child at their own pace so that they can grow with confidence, feeling supported and cared for.

Teachers focus on creating a 'safe space' (physically and emotionally) for our youngest learners to spark their natural curiosity, nurture confidence, and develop positive attitudes toward school.

Emphasizing a student-centered approach, teachers care for each child's needs as they make discoveries and observations about the world around them.

Junior KG

4 - 5 Years

At this age, your child can be introduced to a more structured style of learning, as our insights into their perception of the world are much deeper now. Your child is no more just a learner; he or she is also capable of creating at this age.

The teachers at KIDS CLOUD make use of several diverse mediums to help your child discover new concepts and ideas smoothly. For example, the nursery curriculum includes activities involving music, storytelling, art, and other engaging activities. By the end of the nursery program at Beanstalk, your child will be ready to conquer the next stage of learning and life with unmatched confidence and excitement.

Senior KG

5 - 6 Years

In the last year of preschool, we take great care to ensure that your child is trained in all vital skills—social, emotional, physical, and intellectual—before he or she graduates from KIDS CLOUD. When it comes to academic skills related to basic math and science, our teachers will help your child develop the ability to identify and distinguish shapes and identify patterns. Your child will also be introduced to basic reading and writing skills to help them develop meaningful literary skills. Physically, we help your child strengthen his or her muscle movements through interactives such as obstacle courses and cultivates leadership qualities—exhibiting their talents to the audience.

Key Development Areas

STORY TIME

Story time captivates young minds through engaging narratives and vibrant illustrations, fostering a love for reading and igniting imagination with simple, and clear language.

OUTDOOR EXPLORATION

Outdoor play provides an opportunity to explore, discover and appreciate the natural world, as well as be active, strengthen fine and gross motor movement skills, test physical limits and get messy. Time spent in the outdoors should be an important part of the daily program.

LANGUAGE AND LISTENING

A child's listening skills act as the building block of communication, language, and intelligence with many fascinating imaginations, here children get to discover a lot as we offer exciting story books in our library. The inquisitive nature of your little one further increases the importance of listening skills.

ADVANCED LEARNING ACTIVITIES

Our campus has everything your child will need to learn, discover, and grow. Age-appropriate learning spaces, state-of-the-art facilities, and the latest interactive technology unleash our students' potential.

NURTURING INDIVIDUAL POTENTIAL

Focuses on the use of large muscles, small muscle groups, and whole-body movement to perform tasks like jumping, walking, balancing, crawling, running, and throwing. Our teaching aids are sticking, sorting, clay molding, coloring, and writing activities are used to enhance these skills.

HYBRID MONTESSORI METHOD

That blends core Montessori principles with modern teaching practices, encouraging independent thinking, creativity, hands-on learning, and holistic development in a joyful, child-centered environment.

A DAY AT BANGALORE INTERNATIONAL KIDS CLOUD

The schedule of the children in a day revolves around activities that are engaging, build up skills and are fun. Have a sneak peek to see how our day rolls and experience the environment a child looks for.

ARRIVAL

Our preschool blends Montessori freedom with fun routines, building independence, creativity & social skills. Play fuels confident growth!

Prayer time unites us in thanks to the Almighty, seeking blessings for the day. Gratitude & guidance foster our joyful journey!

PRAYER

CIRCLE TIME

Circle time sparks joy & learning readiness. Shared activities build community, emotional regulation, communication & group cooperation skills!

Nutrition breaks fuel focus & wellness. Steady energy from nutrient-rich snacks boosts clarity, balances emotions & cuts fatigue.

SNACKS

NUMERACY

Montessori math uses hands-on play to engage kids. Explore concepts, build logical thinking & pre-math skills age-appropriately!

Outdoor play builds holistic skills: playground fun, castle-building & water splashing. Child-led experiential play over structured lessons!

PLAY TIME

LITERACY

Literacy Time nurtures reading, speaking & listening enthusiastically. Kids explore worlds, speak confidently & listen empathetically!

Theme learning boosts cognition monthly. Engaging real-world contexts connect subjects, spark curiosity & create memorable celebrations!

THEME

LEARNING CENTRE

Learning Centres spark independent Montessori exploration. Kids unleash creativity, experiment freely, and build skills through joyful self-directed play!

It's time to head home after your enjoyable school day!

WIND UP

After Bangalore International Kids Cloud..... WHAT?
